|---|---|
| Date | 25 February 2026 |
| Team ID | LTVIP2026TMIDS81684 |
| Project Name | Calculating Family Expenses using ServiceNow |
| Maximum Marks | 4 Marks |

## Functional Requirements:

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task) |
|---|---|---|
| FR-1 | User Expense Entry | User can add daily expenses with date, amount, and details |
| FR-2 | Expense Management | User can view, edit, and delete expense records |
| FR-3 | Expense Calculation | System automatically calculates total expenses |
| FR-4 | Expense Tracking | Expenses are grouped based on date |
| FR-5 | Reporting | User can view expense summary and details |
| FR-6 | Admin Control | Admin can manage expense records and users |

## Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

| NFR No. | Non-Functional Requirement | Description |
|---|---|---|
| NFR-1 | Usability | System should be user-friendly and easy to navigate |
| NFR-2 | Security | Only authorized users can access and modify data |
| NFR-3 | Reliability | System should provide accurate calculations without errors |
| NFR-4 | Performance | System should respond quickly when saving or retrieving data |
| NFR-5 | Availability | System should be available whenever users need to access it |
| NFR-6 | Scalability | System should support multiple users and large data in future |
